About Event

The IEEE SPS Forum on WoLT 2.0 (Women Leading Technology)! Presented by IEEE SPS chapter's WISP, IEEE CKPCET SPS SB, and IEEE SCET SPS SB, IEEE MU SPS SB, IEEE GCET SPS SB event that celebrates women Leading Technology.

The event revolves around insightful presentations by accomplished women who have excelled in their respective fields. Titled "Women of Wonders," the first day is dedicated to celebrating and showcasing the achievements of remarkable women. On the second day, the focus shifts to the crucial domain of Cyber Security, where experts will share their expertise and insights. Additionally, participants will have the opportunity to engage in a dynamic Pitch-A-Thon competition,

The PITCH-A-THON is one of the exciting highlights of the IEEE SPS Forum on WOLT 2.0 (Women Leading Technology). It is a platform where engineering enthusiasts and innovators come together to showcase their groundbreaking ideas and solutions for building a resilient future. Participants will have the opportunity to pitch their projects, present their engineering solutions, and compete for a chance to win the prestigious title and a grand prize of Rs. 10,000.

About WiSP

Women in Signal Processing (WiSP) offers networking and engagement opportunities to and for women across signal processing disciplines and professions to exchange ideas and experience from research, industry, and academia.

WISP seeks to develop programs and materials to foster collaboration among members and facilitate female member recruiting, services, and visibility in STEM fields.
